REPORT OF SCHOOL BOARD.

Annual Report of the School Board of Danbury School District for the year ending Feb. 15, 1899.

District officers for the year.

{ James S. Knowlton, Moderator.
{ Weld Connell, Clerk.
{ Charles A. Martin, Treasurer.

School Board.

{ John C. Webster,
{ H. L. M. Clark,
{ John V. Ford.

As another school year closes we are pleased to say the schools have been quite as satisfactory as last year. Our teachers have labored hard for the interest of the scholars, some have met with greater success than others owing largely to encouragement by parents, in seeing that their children are at school every day, and in season, and perhaps assisting them a little at home, and sustaining teachers in their effort to keep good order in school even if their children get punished for breaking the rules of the school. Without order we find children make but little progress. In the country towns we have poor school rooms, and short schools as a rule, while in the cities, the schoolrooms are all that modern art can make them for comfort and convenience, with long schools. But, until such time as our school laws are changed, and the money more equally divided, we must make the best of what we have got. We have the past year as far as was practicable with the best interest of our schools employed home talent for our teachers, and have felt well pleased with their success. There have been 162 weeks of school in (8) eight districts, costing about \$6.50 Per Cap. while in the cities it varies from 18 to 20 dollars.

School books being made from Wood Pulp and poorly bound are quickly worn out. About seventy per cent of the books are in good condition, the balance are bad.
